For more information contact your local Mark Bric distributor/dealer and visit www.markbric.com

One sturdy stand

– for various display materials, in different sizes

MultiMaster

Our new multi-purpose stand masters perfectly graphic banners and plain boards, as well as the Flexiframe and BudgetFrame systems. The MultiMaster impresses with a super height, thanks to our telescopic pole (adjustable up to 300 cm!) and an outstanding stability. The stand comes conveniently packed in a carrying bag with space for the graphic banner as well.

By means of the telescopic pole the height can vary from 1 meter up to 3 meters.

The multi-connector holds both Flexiframe, Budget Frame and plain boards/panels.

Two alternatives to attach graphic banners: using plastic strips with adhesive tape (k&h), or aluminium banner rails (snap function).

The stand will be delivered in a carrying bag.

Banners and frames can be used doubled-sided as well.

Now in two colours: Aluminium anodised and black.
